Purpose of Inspection:

The operator requested that the Division inspect and close this permit.

Inspection Summary:

Mr. Pulsipher drove me to several areas within the lease where he had removed rock. None of the areas showed any effect from his rock removal activities. He had only removed surface rock and there was no evidence of any excavations. His method of operations resulted in very low impacts to the vegetation; therefore, the vegetation has

recovered nicely in the areas where rocks had been removed. He has not removed any rock from this site in several years since he lost his SITLA lease.

Conclusions/Recommendations:

This permit can be closed.
